

Psychology 201 – Human Growth & Development
Dr. Thomas Geffre, Professor of Education

The Problems:

A parent, who has a four year old child, comes to you wondering if this child might be ready for Kindergarten. What might you need to do to help this parent determine this child's readiness for Kindergarten?

A mother of a fifth grade student has some concerns about the social, physical, emotional and mental readiness of her child, especially since the child is scheduled to enter a middle school setting in the Fall. What can you do to assist this mother?
