

First Destination Outcomes of Mayville State University Graduates

An annual report compiled by Mayville State University Career Services
 A compilation of the graduating classes of 2012-13, 2013-14, 2014-15

Career Services staff annually seeks out data about the current 'career status' of our recent graduates. Our data gathering begins during each graduate's final term, but the majority of our surveying and searching is carried out six months after each graduate receives their degree. We determine how (and where) they are employed and/or continuing their education. When graduates agree to share salary data, we also compile that.

Our methodology is to first compile credible contact information ... not always easy to get! We ask faculty and students for information, and of course, do extensive online searches for any potential contact information. We first try to reach graduates by email and ask them to complete a brief online survey available at all times on our website. When emails or other means fail, we turn to calling the graduates. The process is long and time-consuming, but does result in us being able to compile reliable data.

Should you have questions about this report, please contact us. Our contact information can be found at www.mayvillestate.edu/careers

	# of Graduates	Status Known	%	Employed in a Field Related to Studies	%	Employed in a Field Not Related to Studies - By Choice	%	Employed Total	%	Continuing Education	%	Not Seeking	Job Searching	Outcomes Summary			
														Employed or Continuing Education	%	Employed in ND	%
