Are you having trouble with your cursor jumping around when you type?

If so, you may be able to fix it by turning off the Touch Pad.

*Function + F4*

This key combination should turn the Touch Pad on and off.
If you have the black and silver Fujitsu laptop, and you use a USB Mouse, you can set the Touch Pad to automatically turn off when you plug the mouse in.

Follow the instructions below.
Click the **Start** button on the lower left corner. 
Click **Control Panel**.
Click Hardware and Sound
Click Mouse
Click the **USB mouse connection** tab
Click **Touch Pad is automatically invalidated**
Click **OK**
