

At Mayville State, you'll earn more than a degree. You'll earn an education.

University Studies • Bachelor of University Studies On-campus

Personal Service

We pride ourselves on being just the right size to give students the time they need to be successful. Our average class size is 15, so you will have small, personalized class settings with a technological focus for you to receive the education that you deserve. Your professors will introduce you to new ways of thinking, explore issues creatively, and evaluate ideas as you engage in the world.

Opportunity

Whether it's music, athletics, or politics, students at MSU have the chance to participate in a variety of activities and clubs. These organizations are a great way to make new friends with similar interests, and the involvement outside the classroom looks great on a resume.

Some clubs and activities include:

- Theater
- Band & choir
- Computer Technology Club
- Science Club
- Comet Radio
- Student government
- Intramural sports

Success

Our students get jobs. Period. Job placement rates are consistently 96-98%! We also have internship opportunities to give you real, hands-on learning experiences and make your resume stand out.

Value

The combination of MSU's affordability and its unique offerings make it a Best in the Midwest College, as designated by the Princeton Review. MSU was also named one of the 2013 top three Public Regional Colleges in the Midwest by U.S. News & World Report.

The Program

The Bachelor of University Studies (B.U.S.) degree program is intended for students who have not completed a bachelor's degree. The B.U.S. degree provides flexibility for students who wish to determine the content of their degree rather than pursue a specific major. Each student will design a program leading to specific educational goals, but not necessarily within any one department. This provides a flexible and adaptable degree based on your individual needs and previously completed coursework.

Advantages

This flexible degree is available to students who wish to structure their own program of study while selecting classes that are valuable for their personal goals. This degree could be the right fit for you if you are not sure which program of study you prefer.

The B.U.S. program allows you to draw from a number of different coursework options, including business, early childhood, education, English, psychology, library media and information science, and health, physical education and recreation. Students should note that the B.U.S. degree doesn't qualify the graduate for teacher certification.

Students who previously attended college and did not earn a degree for whatever reason will find this program allows them to return and complete their education. The bachelor of university studies program at MSU is very transfer-friendly.

Any coursework you previously earned from regionally accredited institutions will be accepted and applied to the B.U.S. core requirements, general education, optional minor, and electives as appropriate, regardless of the academic program in which you were previously enrolled.
