

Mayville State University

Elementary Education
Bachelor of Science in Education

Personal Service

We pride ourselves on being just the right size to give students the time they need to be successful. Our average class size is 15, so you will have small, personalized class settings to receive the education that you deserve. Your professors will introduce you to new ways of thinking, explore issues creatively, and evaluate ideas as you engage in the world.

Opportunity

Whether it's music, athletics, or politics, students at MSU have the chance to participate in a variety of activities and clubs. These organizations are a great way to make new friends with similar interests, and the involvement outside the classroom looks great on a resume.

Some clubs and activities include:

- Student Education Association
- Theater
- Band & choir
- DECA
- Science Club
- Comet Radio
- Student government
- Intramural sports

Success

Our students have a high rate of employment. We also have internship opportunities to give you real, hands-on learning experiences and make your resume stand out.

Value

The combination of MSU's affordability and its unique offerings make it a Best Regional College, as designated by the Princeton Review. This selection process is based on meeting criteria for academic excellence as well as results of surveys done by current MSU students.

The Program

There are few people who have a bigger impact on our world than teachers. We are dedicated to making you the best teacher you can be and our program prepares you to succeed in the classroom and make a difference for your students.

The Teacher Education program at Mayville State University is accredited by the Council for the Accreditation of Educator Preparation (CAEP). The program includes a student cohort system with several field experiences that integrate all program elements. Students are taught to use a variety of research-based instructional strategies as well as multiple performance-based assessment practices.

Advantages

Hands-on experiences. The Elementary Education program offers several opportunities to work with local grade school students and teachers in hands-on experiences.

Full-time faculty advisors. Unlike students in larger education programs, Mayville State Elementary Education students are advised and mentored by full-time education faculty.

Tradition of training teachers. For more than a century, Mayville State University has been training teachers. Teacher education has been critical to our mission since we opened our doors in 1889.

A Word About Our Grads

MSU Education graduates are some of the most sought-after teaching candidates in the region and nation. About 800 teachers currently teaching in North Dakota are MSU graduates. Teachers trained at MSU are leaders who make a tremendous professional and civic impact in their local communities.

In addition to the essential studies requirements for the baccalaureate degree, majors in Elementary Education are required to complete the core of courses specified below. A specialization, minor or 2nd major is required with this program. Those seeking a double major are exempt from pursuing a minor. Elementary Education majors seeking kindergarten endorsement must complete at least five semester hours of student teaching at that level. Elementary Education majors seeking secondary certification in another major area must complete at least five semester hours of student teaching in that major at the secondary level.

Elementary Education majors must complete 30 hours of essential studies to include courses required for teacher education.

Elementary Education

EDUC 436	Kindergarten Methods	2 SH
EDUC 400A	PT Student Teaching	5 SH

16 Total SH

"I like how the teachers get to know you personally. They treat you as a person and not a number. Also in my field, they give you lots of opportunities to work with children. This allows you to get experience that helps you decide if you want to be doing what you're doing"

- Brooke S.

Elementary Education Major
