

# Mayville State University

## Elementary Education - Lake Region State College

*Bachelor of Science in Education Online/Distance Program*

### Personal Service

We pride ourselves on being just the right size to give students the time they deserve. Our average class size is 20. Your professors will introduce you to new ways of thinking, exploring issues creatively, and evaluating ideas as you engage in the world, and you will have small, personalized class settings.

### Flexible

Interactive Video Network (IVN) classes or synchronous, online classes are offered evenings for working adults. Summer classes allow you to focus and complete a course in a shorter time frame, and online class options are available for most course requirements. Interactive Video Network (IVN) or synchronous courses are required. This degree is offered to North Dakota, Wyoming, and adjacent states' residents only. Please speak with a program advisor for more information.

### Success

Earning your bachelor's degree will allow you to explore new teaching-focused career opportunities. You will be a part of over 125 years of Mayville State history in teacher preparation.

### Value

The combination of MSU's affordability and its unique offerings make it a Best Regional College, as designated by the Princeton Review. This selection process is based on meeting criteria for academic excellence as well as results of surveys done by current MSU students.

### The Program

Pursue your Bachelor of Science degree in elementary education from Mayville State University over the interactive video network (or with some scheduled, synchronous online courses) and with mostly online courses. Remain near home, work, and family while completing classes towards a four-year degree that will open doors to exciting career opportunities.

### Accreditation & Framework

The teacher education program at Mayville State University is accredited by the Council for the Accreditation of Educator Preparation (CAEP). Our conceptual framework theme is The Reflective Experiential Teacher Model. The theme is based upon established learning concepts that students develop and demonstrate in their coursework, field experiences, and student teaching.

The program includes a student cohort system with two field experiences that integrate all program elements. Candidates are taught to use a variety of research-based instructional strategies as well as multiple performance-based assessment practices.

Field experiences and methods courses require distance learning students to make daytime hours available to complete instructor-arranged, in-school practicum experience hours.

### Program Guidelines

- Students seeking admission to the elementary education program must successfully complete the PRAXIS Core exam with scores that meet or exceed the North Dakota state requirements.
- Candidates must earn at least a 2.75 cumulative GPA for the overall average, essential studies requirements, and for each major and minor field of study.
- Students must also meet all other requirements listed in the academic catalog to be admitted into the program.

### Diversity & Technology

Studies of multicultural and global perspectives are required in candidates' general, content, and professional coursework. Candidates must create an electronic portfolio showcasing their ability to demonstrate content, pedagogical, and professional knowledge.

MSU's Bachelor of Science degree in elementary education consists of:

- Courses in essential studies
- The major
- Required specialization, minor, or second major

Current Mayville State students who wish to apply for a kindergarten endorsement through ESPB must complete the Early Childhood Education specialization or minor and enroll in five (5) S.H. of kindergarten student teaching. Check the MSU Catalog for requirements of all minors, specializations, and areas of special teaching interest.

## Elementary Education Major

### Core Requirements:

|          |  |      |
|----------|--|------|
| EDUC 350 | Remedial Reading                                     | 3 SH |
| GEOG 300 | World Reg. Geo/Anthropology                          | 3 SH |
