

# Mommy, Me, and SWE

With UND Society of Women Engineers  
Sponsored by the MSU Education and Innovation Center

Join us for a morning filled with Science and Engineering!  
Volunteers from Society of Women Engineers will start the day off  
with a flaming ice demonstration to begin a discussion about the STEM  
(Science, Technology, Engineering, and Mathematics) field and why it's so  
cool!

Throughout the morning, participants will be able to design, create,  
and test their experiments. The experiments will be a "take-home" as a  
reminder of why we think the STEM field is so amazing!

Saturday, September 23<sup>rd</sup>

10:00AM - 12:00PM

Room 118 Education Building

Mayville State University

Cost \$15

Please register by September 15
