

At Mayville State, you'll earn more than a degree. You'll earn an education.

Early Childhood Education • Associate of Arts

Personal Service

We pride ourselves on being just the right size to give students the time they need to be successful. Our average class size is 15, so you will have small, personalized class settings with a technological focus for you to receive the education that you deserve. Your professors will introduce you to new ways of thinking, explore issues creatively, and evaluate ideas as you engage in the world.

Opportunity

Whether it's music, athletics, or politics, students at MSU have the chance to participate in a variety of activities and clubs. These organizations are a great way to make new friends with similar interests, and the involvement outside the classroom looks great on a resume.

Some clubs and activities include:

- Theater
- Band & choir
- Computer Technology Club
- Science Club
- Comet Radio
- Student government
- Intramural sports

Success

Our students get jobs. Period. Job placement rates are consistently 96-98%! We also have internship opportunities to give you real, hands-on learning experiences and make your resume stand out.

Value

The combination of MSU's affordability and its unique offerings make it a Best in the Midwest College, as designated by the Princeton Review. MSU was also named one of the 2013 top three Public Regional Colleges in the Midwest by U.S. News & World Report.

The Program

Real world experience is the key when learning how to best work with young children. Mayville State University's early childhood program provides hands-on experience in our Child Development Center and prepares you to make an impact on the lives of young children. [The early childhood Associate program is also offered as an online program option.](#)

MSU's early childhood program will give you the opportunity to further your professional growth. Courses completed in the A.A. program can be applied directly to bachelor's programs in early childhood, and the program takes full advantage of distance learning opportunities to provide flexibility.

Advantages

Hands-on experiences. The early childhood program offers you several opportunities for hands-on experiences working with preschool students and teachers. MSU's on-campus Child Development Center is a great place for early childhood students to work with young children. The MSU Child Development Programs include licensed child care for children six weeks to six years old, Head Start for eligible children ages 3 to 5 years, Early Head Start for children ages six weeks to three years, and after-school care for local elementary students.

Flexibility. The early childhood program uses distance learning technology to provide the kind of flexible experience that meets the needs of both traditional and non-traditional students.
