

Installing Duo Mobile for MFA

(Multi-Factor Authentication)

1. Install Duo Mobile

Find the Duo Mobile App for your type of device by searching for Duo Mobile in your app store or using the following direct addresses:

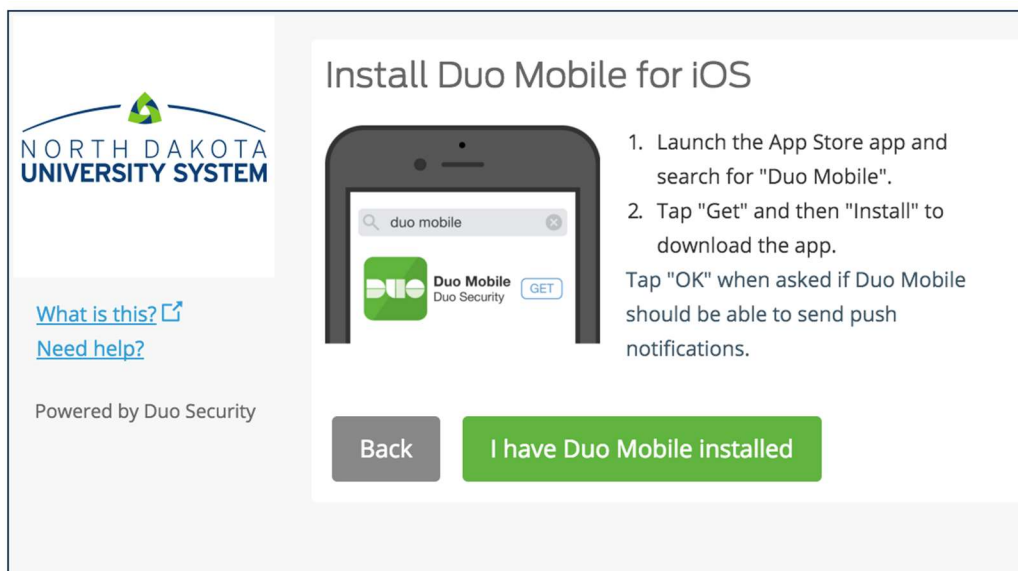

iPhone - <https://itunes.apple.com/us/app/duo-mobile/id422663827?mt=8>

Android - <https://play.google.com/store/apps/details?id=com.duosecurity.duomobile&hl=en>

App Store - <https://itunes.apple.com/us/app/duo-mobile/id422663827?mt=8>

Google Play - <https://play.google.com/store/apps/details?id=com.duosecurity.duomobile&hl=en>

Follow the platform-specific instructions on the screen to install Duo Mobile. After installing the app return to the enrollment window at <https://2fa.ndus.edu> and log in with your NDUS credentials. Click **I have Duo Mobile installed**.

2. Activate Duo Mobile

Activating the app, links it to your account so you can use it for authentication.

On iPhone, Android, and Windows Phones activate Duo Mobile by scanning the barcode on the screen with the app's built-in barcode scanner. Follow the platform specific instructions for your device:

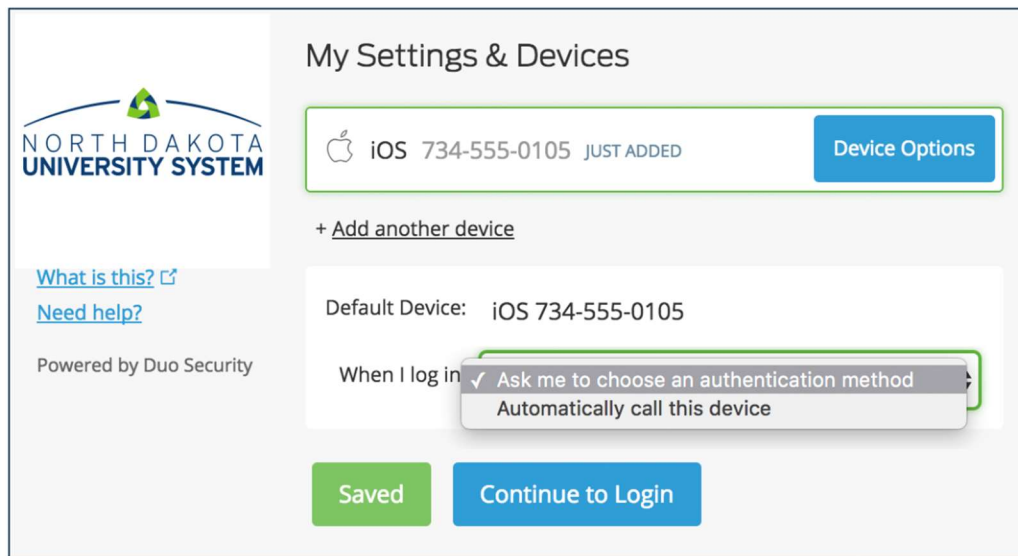

The "Continue" button is clickable after you scan the barcode successfully.

Can't scan the barcode? Click **Email me an activation link instead.** and follow the instructions.

3. Configure Device Options (optional)

You can use **Device Options** to give your phone a more descriptive name, or you can click **Add another device** to start the enrollment process again and add a second phone or another authenticator. Adding a second phone is highly recommended as a backup in the case of a loss/theft/damage of the registered device.

If this is the device you'll use most often with Duo then you may want to enable automatic push requests by changing the **When I log in:** option and changing the setting from "Ask me to choose an authentication method" to "Automatically send this device a Duo Push" or "Automatically call this device" and click **Save**. With one of the automatic options enabled Duo automatically sends an authentication request via push notification to the Duo Mobile app on your smartphone or a phone call to your device (depending on your selection).

Click **Continue to login** to proceed to the Duo Prompt.

The screenshot shows the 'My Settings & Devices' page for Duo authentication. On the left, there is the North Dakota University System logo and links for 'What is this?', 'Need help?', and 'Powered by Duo Security'. The main content area shows a list of devices with one device, 'iOS 734-555-0105', listed as 'JUST ADDED'. A 'Device Options' button is next to it. Below the device list is a '+ Add another device' link. The 'Default Device' is set to 'iOS 734-555-0105'. Under 'When I log in:', a dropdown menu is set to 'Ask me to choose an authentication method'. At the bottom, there are 'Saved' and 'Continue to Login' buttons.

Your device is ready to approve Duo authentication requests.

Click **Send me a Push** to give it a try. All you need to do is tap **Approve** on the Duo login request received at your phone.

The screenshot shows the 'Choose an authentication method' page for Duo authentication. On the left, there is the North Dakota University System logo and links for 'What is this?', 'Add a new device', 'My Settings & Devices', 'Need help?', and 'Powered by Duo Security'. The main content area has the title 'Choose an authentication method' and three options: 'Duo Push RECOMMENDED' with a 'Send Me a Push' button, 'Call Me' with a 'Call Me' button, and 'Passcode' with an 'Enter a Passcode' button. At the bottom, there is a green banner with the text 'Enrollment successful! This is the Duo login prompt that you'll normally see when logging in.' and a close button (X).
