

Science in a Nutshell

Destination: Moon

Description: Student astronomers solve mysteries about the moon's revolution and rotation and the origins of its features by constructing models and performing experiments.

Includes:

- Activity Guide
- Activity Journals
- Aluminum Foil
- Compass
- Dowel Rods
- Earth Balloons
- Foam Ball
- Marbles
- Modeling Clay
- Moon-phase flip-book masters
- Moon Photo
- Plastic Beaker
- Rocks
- String
- Washer
