

# Science in a Nutshell

## Flowering Plants

**Description:** Observe how seeds grow and change. Discover why plants produce many seeds, explore how roots, stems, leaves, and flowers function, and explore diversity among plants.

**Includes:**

- Activity Guide
- Activity Journals
- Aluminum foil
- Ear of dried corn
- Food coloring
- Gravel
- Magnifier
- Measuring scoop
- Petri Dish
- Pipette
- Plastic cup
- Plastic plant pots
- Potting Soil
- Seeds (corn, grass, clover, lima bean, mung bean)}
