

# Science in a Nutshell

## Rock Origins

**Description:** Investigate how igneous, sedimentary, and metamorphic rocks are formed. Observe the different properties of rocks and minerals and then try to identify samples of each.

### Includes:

- Activity Guide
- Activity Journals
- Baking Soda
- Cups
- Hand Lens
- Limestone Chips
- Magnet
- Mineral and rock samples
- Nail
- Sand
- Sandy Oil
- Streak Plate
- String
- Vial, with lid
- Vinegar
