

# Math in a Nutshell

## Data Analysis and Probability (Grades 5-6)

**Description:** Reinforce probability and provide practice in organizing data graphically. Students collect data in simple probability experiments. Then they create pictographs, bar graphs, histograms, line graphs, pie charts, stem-and-leaf plots, tallies, and tables to show the results.

### Includes:

- Student Activity Guide
- Beads
- Color Disks
- Dial-a-Datum
- Dominoes
- Drawstring Bag
- 1-6 Number Cube
- Teacher's Guide
- 7-12 Number Cube
- 4-part spinner
- 5-part spinner
- Probability Tube
- Plastic coins
