

Get the latest updates on the renovation of Mayville State's historic Old Main! Follow progress, upcoming projects, and more as PCL/Community Contractors work to preserve its legacy and shape its future.

## PROGRESS UPDATES

- **Basement:** Underground pathways for plumbing.
- **First floor:** Structural steel upgrades.
- **Second floor:** Structural steel upgrades.
- **Third floor:** Structural steel upgrades.
- **Fourth floor:** Wood framing, floor system framing, structural modifications.

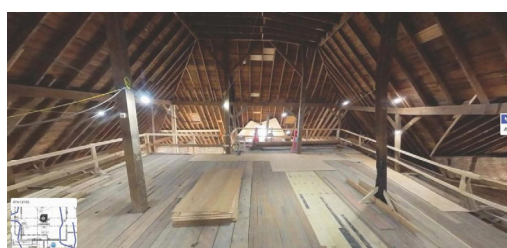

First Floor

Second Floor

Third Floor

Fourth Floor

## UPCOMING WORK

In a few weeks, we'll begin installing HVAC on the fourth floor and shortly after, partition wall framing.

## DID YOU KNOW?

Approximately 100,000 pounds of structural material upgrades are installed in the building.

## QUALITY CORNER

### Punch Lists

Although the project's completion is a year away, we've already developed our punch list procedures. This ensures proper buy-in from the design team, ownership and our construction team. It enables us to provide a clear and concise vision for our turnover processes and reduce confusion during a stressful project phase.

## SAFETY TOPIC

### First Aid

Simple first aid is a very important skill to have on any construction project. We have med kits, eye wash stations, AEDs, and Narcan on hand for any first aid response that is needed. All of our staff have regular first aid and CPR training.

*This project is funded through appropriates made by the North Dakota 68th Legislative Assembly.*
