

SUMMER 2018

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

Eight-Week Session May 21 - July 15

BOTE 347 Computer Applications in Business (3)

Class # 5762 — Instructor: Rhonda Nelson

This course will guide and instruct students on the advance functions, features, and best practices when using word processing, spreadsheets, and presentation applications in the workplace. Student will explore collaborative work environments and new technologies. Students have opportunities to develop and adapt technology skills used in applying business theory to analyze and solve problems. This course is a prerequisite for BUSN 323. Prerequisite: CIS 119. \$60 lab fee required.

BUSN 343 Ethical Decision Making (3)

Class # 8688 — Instructor: Theodore Stoa

This course will focus on the ethical issues that business professionals face. It will challenge the student's critical thinking about the role of business in society, the nature of corporate social responsibility, and the influence of social, political, legal, regulatory and environmental issues.

BUSN 348 Personal & Consumer Finance (3) **Class # 8692 — Instructor: Dustin Olson**

This course will cover personal financial decisions including: basic financial planning/personal budgeting, tax issues, personal savings and other liquid accounts, buying a house, the use of credit, insurance, managing investments and saving for retirement.

BUSN 351 Human Resource Management (3) **Class # 8687 — Instructor: Rob Johnston**

This course provides students an opportunity to learn the importance of managing an organization's human resources. Students will examine how human behavior, legal framework, individual differences, and employee performance influence the organizational goals and objectives. A critical component of this course includes strategically planning and applying human resource functions to a business experiencing change. Prerequisite: BADM 302.

BUSN 495 Service Learning (0.5-4)

Class # 5765 — Instructor: Rhonda Nelson

Senior level students may earn academic credit for volunteer service activities. These hands-on activities must be completed within the semester of enrollment and be related to an existing program in the MaSU catalog. All service learning experiences will be arranged through the appropriate division chair. A total of six semester hours of service learning will be allowed towards graduation. One hour of academic credit equals a minimum of 30 clock hours of volunteer service. S/U grading.

CIS 119 Computer Application Software (3) **Class #5768 — Instructor: Rhonda Nelson**

This course will provide students the basic instruction for the use of word processing, spreadsheet, and presentation application software. Students will be required to demonstrate a specified level of proficiency within each application. Students will also learn the basics and guidance on the use of email, file management, and other current or relevant topics or software which will prepare a student for success while in college.

EC 210 Introduction to ECE (3)

Class # 5797 — Instructor: Kelli Odden

This course is to be completed during the first semester of the first year a student is in the Early Childhood program. Students will learn about the early childhood profession, its multiple historical, philosophical, and social foundations.

The conditions of children, families, and professionals that affect programs for young children, will also be explored. Some of the conditions addressed include: cultural diversity socio-economic conditions, and family structures. Course content also includes plan, and the stages of cognitive, social/affective, and physical development of young children. This course is for educators who will be teaching in Birth to Third Grade classrooms. CO-requisite: EC 211.

EC 211 Observations, Assessment, & Interpretation Techniques (3)

Class #5798 — Instructor: Kelli Odden

This course emphasizes the importance of skillful observation when planning appropriate activities and experiences for children. In addition, the course will explore the use of informal and formal assessment strategies to plan and individualize curriculum and teaching practices. Students will review, use and interpret assessment instruments to determine the ability levels of children (birth-8yrs) representing 'at risk' populations, those with developmental disabilities and special abilities. This course is for educators who will be teaching in Birth to Third Grade classrooms. The class serves as the required course in assessment of young children/children with special needs for early childhood special education licensure. CO-requisite: EC 210.

EC 313 Language & Literacy in ECE (3)

Class # 5731 — Instructor: Ann Willeon

A continuation of EC 333, this course explores Language Arts in Early Childhood classrooms. The focus will be on literacy, which includes reading, writing, listening and speaking. Students will develop materials, and activities that are developmentally appropriate and based on knowledge of individual children. Second-language development is discussed in regards to preserving a child's home language in order to set a firm foundation for the learning of a second language and the overall enhancement of a child's language and literacy skills. This course is for educators who will teach in Birth to Third Grade classrooms. Prerequisite: EC 333.

EC 333 Pre-K Methods/Materials (3)

Class # 5732 — Instructor: Ann Willeon

This course emphasizes developmentally appropriate curricula based on the needs and interests of individual Pre-kindergarten children. This includes an awareness of each child's culture and family background when planning activities. Because play is critical to a child's development, students will plan and implement both children-directed activities and teacher-directed lessons. Students will also design and assess teacher made materials. They will demonstrate effective teaching techniques in various curriculum areas, including science, math, arts, music and movement, literacy, and social studies. Prerequisites: EC 210, EC 211; CO-requisite: EC 376. \$15 lab fee required.

EC 345 Grant Writing (2)

Class # 8164 — Instructor Allison Johnson

This course will help students locate sources for grants and provide proper education for submitting an effective

proposal. Content will include a review of the grant writing terminology, the application process, writing tips, budget development, and specific techniques for developing and submitting a proposal. Prerequisite: ENGL 110, ENGL 120, or ENGL 125.

EC 376 Field Experience in ECE (1)

Class # 5734 — Instructor: Ann Willeon

This course is designed to give students a field experience in an early childhood classroom where they will implement curriculum and instructional practices that are covered in EC 333: Pre-K Methods and Materials. Students will actively engage in the early childhood setting, including play time, while under the supervision of professional early childhood staff. Prerequisites: EC 210, EC 211. CO-requisite: EC 333.

EDUC 290 Theories of Learning & Management (2)

Class # 5795 — Instructor: Pam Johnson

This course is designed as a higher-ordered study of intertwined and varied theoretical perspectives on learning, cognition, and behavior management of learners. A focus in this course is on understanding how learning occurs, learning readiness, assets for learning, and how individuals construct knowledge and acquire skills. Students will learn how to make instructional decisions to respect the individual strengths and needs of 21st Century learners. Another focus is on motivation and engagement as it relates to building self-direction. Students will understand how to collaborate with learners to create optimal learning environments. Prerequisite: PSYC 111.

EDUC 317 Children's Literature (3)

Class # 5735 — Instructor: Ann Willeon

A survey of children's literature, past and present and covering all genres including a balance of non-fiction to support North Dakota State standards in the classroom. Students will engage in related studies on topics including selection and evaluation of materials, the needs and interests of children, and the development of literature appreciation in children. Students also review literature related to diversity (e.g., ethnicity, race, socio-economic status, gender, exceptionalities, language, religion, and sexual orientation) while completing online research to create cultural units that infuse diversity and literature across the curriculum.

EDUC 325 Creative Arts in Elementary Classroom (3)

Class #5728 — Instructor: Ann Willeon

This course is a study of creative arts in the elementary classroom. The course will provide instruction and demonstration in developing and using methods and materials to teach art, music, movement and theater in the K-6 classroom. Prerequisite: EDUC 250.

EDUC 350 Remedial Reading (3)

Class #9067 — Instructor: Yvonne Cannon

This course includes an overview and application of research-based assessment, diagnostic practices, and corrective reading methods to provide interventions and

Eight-Week Session May 21 - July 15

differentiated support in reading instruction. Students will learn to assess, analyze assessment data, and plan and practice research-based instructional strategies that support student learning styles and different reading abilities, including English Language Learners. Students will demonstrate teaching competencies in reading instruction and assessment to support learning styles. Students will demonstrate teaching competencies using research-based assessment and instructional strategies for small group, whole group and individual learners in a regular classroom setting and within intensive reading programs. Students will participate in student-led inquiry, shared teaching practice and performance, and case study applications. A short observational field experience is required for Fall and Spring course offerings. Prerequisite: EDUC 318 and Admission to Teacher Education.

EDUC 380 Teaching English Language Learners (1)

Class # 5729 — Instructor: Clayton Dodson

This course will cover 15 topics related to the education of English Language Learners to include: Use of Home Language Survey, administration and screening assessments, Federal and State Laws on ELL programming and the Rights of ELL's, Federal Title III program guidelines and school requirements, LEP/ELL accommodations for assessment and instruction, ND Century and Administrative Code regarding ELL Programs and Services, Targets, Criteria and Accountability for ELL, Exit Criteria, ACCESS for ELLs annual assessment, and Individualized Language Plans & ELL Program Models. Teacher candidates will develop understandings of programs options for ELL's and learn how to make instructional decisions to respect the individual strengths and needs of English Language Learners based upon ELD Standards and Can-Do Descriptors. Prerequisite: EDUC 250.

EDUC 381 Human Relations/Cultural Diversity (3)

Class # 5736 — Instructor: Kelli Odden

This course engages students to analyze the socio-cultural dimension that influences the educational process for individuals based on ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, and geographical area. Teacher candidates will learn to assess, plan, and implement teaching strategies to meet the needs of students from diverse backgrounds including Native American, African American, Asian American, and Hispanic as well as refugee populations. Teacher candidates will examine stereotypes, prejudice, discrimination, and differing value systems in an attempt to better understand the socio-cultural behaviors and characteristics of different ethnic groups to provide a supportive educational environment. Students will participate in one or more field experiences. Prerequisite: EDUC 250.

EDUC 390 Special Needs in an Inclusive Environment (3)

Class # 5737 — Instructor: Kelli Odden

This is an introductory course in identifying children, youth, and young adults with special needs as outlined in PL 108-446 (i.e., learning disabilities, intellectual disabilities, physical impairments, other health impairments, sensory impairments, communication disorders, emotional/behavior disorders, autism, and traumatic brain injury) and PL 95-561 (i.e., gifted and talented). Emphasis will be placed upon the inclusion concept, teaming approaches, an overview of assessment techniques, certification requirements, individual education plans, and the use of modifications and adaptations within an inclusive environment in general education classrooms. This course serves as

approved documentation of enrollment in additional special education coursework for special education majors. Prerequisites: Admission To Teacher Education, junior standing.

EDUC 422 Educational Assessment (2)

Class # 5738 — Instructor: Brittany Hagen

The focus of this course is for teacher candidates to understand and use a range of planning tools for desired learning results and multiple sources of evidence of student learning. Beginning with the identification of learning goals and purpose for assessment, candidates will: (1) diagnosis diverse student needs, (2) learn to use formative assessment and feedback, (3) critique existing assessment tools, (4) design, adapt and select a range of multiple evaluation, (5) use technology to support assessment practices, (6) communicate standards-based results, and (7) use assessment results to improve the teaching and learning process through data-based decision-making. Prerequisite: Admission to Teacher Education, junior standing, and "C" or better in EDUC 290.

EDUC 426 Reading In The Content Area (2)

Class # 7613 — Instructor: Cindy Gregg

The focus of the course is on development of instructional strategies to teach reading and comprehension in all K-12 classrooms. Studies focus on basic principles of developmental reading theory and practice while focusing on diverse learners and learning styles. Participation in teaching demonstrations support the student's use of teaching strategies. This course emphasizes reflective teaching practice and the commitment to varying teaching methods and assessment approaches for K-12 teachers. Students will complete an arranged literacy-based teaching field experience in the Fall session. This course is required for all secondary education majors. Prerequisite: Admission to Teacher Education, junior standing.

EDUC 522 Educational Assessment (3)

Class # 5776 — Instructor: Brittany Hagen

This course will study formal and informal assessment tools for desired learning results and multiple sources of evidence of student learning. Emphasis with the identification of learning goals and purpose for assessment so students may: diagnosis diverse student needs, learn to use formative assessment and feedback, critique existing assessment tools, design, adapt and select a range of multiple evaluation, use technology to support assessment practices, communicate standards-based results, and use assessment results to improve the teaching and learning process through data-based decision-making.

EDUC 526 Foundations of Practices in Reading Instruction (3)

Class # 5777 — Instructor: Cindy Gregg

This course is grounded in the theoretical bases of balanced literacy instruction and constructivist learning. Students will build competencies in reading instruction and planning literacy-based lessons to support standards-based practice.

EDUC 555 Child & Adolescent Development (3)

Class # 5778 — Instructor: Lynn DiLivio

This course is designed to cover specifically the cognitive, physiological, social, and emotional aspects of human development from conception to early adulthood. Special emphasis is placed on the development of students of diversity.

EDUC 581 Human Relations & Diversity (3)

Class # 5796 — Instructor: Kelli Odden

This course will study the theoretical and practical issues of diversity in classroom settings related to disabilities, culture, race, gender, ethnicity, language, and socioeconomic levels. The student will examine stereotypes, prejudice, discrimination, and differing value systems in an attempt to better understand the behaviors and characteristics in a diverse classroom to provide a supportive educational environment.

EDUC 592 Theories of Learning & Management (2)

Class # 5779 — Instructor: Pam Johnson

This course is designed as a higher-ordered study of intertwined and varied theoretical perspectives on learning, cognition, and behavior management of learners. Participants will study the learning process, student learning readiness, assets for learning, and how individuals construct knowledge and acquire skills. Understandings of individual strengths and needs of learners will guide growth in instructional decision making while motivating and engaging students to build competencies in self-directed learning behaviors. Students will research optimal learning environments to meet students' needs.

EDUC 593 Inclusive Classroom (2)

Class # 5780 — Instructor: Kelli Odden

This course assists teachers when identifying children, youth and young adults with special needs as outlined in PL 108-446 (i.e., learning disabilities, intellectual disabilities, physical impairments, other health impairments, sensory impairments, communication disorders, emotional/behavior disorders, autism, and traumatic brain injury) and PL 95-561 (i.e., gifted and talented). Students will research concepts of inclusion, teaming approaches, assessment techniques, certification requirements, individual education plans, and the use of modifications and adaptations within an inclusive environment in general education classrooms. Students will research the roles and responsibilities of a general education teacher on a special education team. A focus on collaborative processes, organizational support services for students and families, and the individualization of learning plans that support students with disabilities guides research and learning for the course.

EDUC 595 Comprehensive Capstone Project (1)

Class # 7614 — Instructor: Andi Dulski-Bucholz

The Comprehensive Capstone project is designed for students completing the MAT degree to demonstrate competencies in the knowledge, skills, and dispositions required for effective classroom teaching. Students will indicate a discipline to focus their research emphasis. A self-directed study in ethics in education is included in this course.

IMPORTANT REGULAR 8-WEEK CLASS INFORMATION:

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

Eight-Week Session May 21 - July 15

LMIS 250 Intro Libraries & Info Science

(3) Class # 5724— Instructor: Kelly Kornkven

Survey of communication theory, web resources and evaluation, plagiarism and copyright issues, information literacy, and the historical and technical aspects of libraries. Students will practice library procedures with a special emphasis on emerging technologies.

LMIS 317 Children's Literature (3)

Class # 5781 — Instructor: Ann Willeson

A survey of children's literature, past and present covering all genres including a balance of non-fiction to support North Dakota State Standards in the classroom. Students will engage in related studies on topics including selection and evaluation of materials, the needs and interests of children, and the development of literature appreciation in children. Students also review literature related to diversity (e.g., ethnicity, race, socio-economic status, gender, exceptionalities, language, religion, and sexual orientation) while completing online research to create cultural units that infuse diversity and literature across the curriculum.

LMIS 360 Media Collection Development (3)

Class # 7616 — Instructor: Kelly Kornkven

Covers basic principles of and practice in evaluation, selection of materials for diverse populations, and weeding of library materials in all formats, the use of aide in selection and weeding, and the development of policies about the collections.

LMIS 365 Organization of Information

(3) Class # 7617 — Instructor: Aubrey Madler

Introducing the principles of organizing library materials, this course provides practice in the use of descriptive cataloging, subject classification, MARC format and library automation.

LMIS 430 Administration of the School Library Media Center (3)

Class # 7070 — Instructor: Aubrey Madler

A study of the objectives and functions of a school library media center and the principles of management. Emphasis is given to teacher-librarian collaboration, information, literacy models, and state and national information literacy standards. Practice in establishing policies and procedures and in promoting information literacy. Students are encouraged to take LMIS 250, 360, and 365 prior to taking this course.

SPED 337 Special Needs ECE (3)

Class # 5740 — Instructor: Kelli Odden

Designed with Early Childhood student in mind, this course surveys various special needs (physical, cognitive, communication, social, emotional) and approaches to dealing with them in the mainstream group care setting. Students will learn to adapt strategies and environments to meet the specific needs of all children, including those with disabilities, developmental delays and special needs. Students will be able to identify family, cultural, and community influences on child development, both typical and atypical. This course is designed for educators who will teach in birth to third grade classrooms. Prerequisites: EC 210, EC 211.

SPED 350 Remedial Reading (3)

Class #9068 — Instructor: Yvonne Cannon

This course includes an overview and application of research-based assessment, diagnostic practices, and

corrective reading methods to provide interventions and differentiated support in reading instruction. Students will learn to assess, analyze assessment data, and plan and practice research-based instructional strategies that support student learning styles and different reading abilities, including English Language Learners. Students will demonstrate teaching competencies in reading instruction and assessment to support learning styles. Students will demonstrate teaching competencies using research-based assessment and instructional strategies for small group, whole group, and individual learners in a regular classroom setting and within intensive reading programs. Students will participate in student-led inquiry, shared teaching practice and performance, and case study applications. A short observational field experience is required for Fall and Spring course offerings. Prerequisite: EDUC 318 and Admission to Teacher Education.

SPED 388 Autism Spectrum Disorders

(3) Class # 5741 — Instructor: Johnna Westby

The course will examine the historical perspective of the autism spectrum, etiology, and characteristics associated with the wide range of disorders. Instructional strategies to be studied include: academic skill acquisition, early communication, language acquisition & development, socialization, applied behavior analysis, and challenging behaviors. Instructional opportunities in non-education settings will be explored. Students will conduct research topics and review lesson plans on the internet. Prerequisite: SPED 389.

SPED 389 Foundations of Special Education (3)

Class # 5742 — Instructor: Brandon Pitzer

This course is designed to provide historical and foundational knowledge and understanding of characteristics of the disability experience, a variety of disability types under IDEA law, their implications, associated conditions and the impact of disability on physical, cognitive, and psychosocial development. The course also provides a model for understanding individuals with disabilities, appropriate decision making, facilitating educational programs, accommodations and modifications, and collaboration with families, professional roles, and outside agencies. A goal of the course is to provide training for education and service providers who serve exceptional children, youth, and adults in a variety of settings.

SPED 396 Special Education Law (3)

Class # 5743 — Instructor: Johnna Westby

In this course students will conduct an in-depth study of the laws and regulations that govern special education, related areas of education law and institutional responsibilities. The course will focus on key concepts of special education law, issues raised through court cases, movements and trends, and the relationship between legal and practical considerations. Students will look at the formal statutes and regulations that govern special education, but most emphasis will be placed on how these laws are implemented in the real world by examining legal decisions, case studies and scenarios. Prerequisite: Admission to Teacher Education and SPED 389.

SPED 397 Assessment of Students with Disabilities (3) \$10 course fee

Class # 7063 — Instructor: Johnna Westby

Students in this course will develop skills informative and summative evaluation methods for children, youth and young adults with mild, moderate, or severe disabilities in an academic or functional curriculum. Students will learn how to administer, interpret and report in a nondiscriminatory manner: observations, work sample, task and error analysis, file review, inventories, diagnostic probes, checklists, rating scales, questionnaires, error analysis, curriculum based measurements and formal achievement tests. Emphasis is on screening, pre-referral, eligibility determination, instructional assessment with on-going evaluation (progress monitoring) and data-based decision making. Prerequisites: Admission to Teacher Education and SPED 389.

HPER 207 Prevention & Care of Injuries

(3) Class # 8177 — Instructor: Timothy O'Brien

ON CAMPUS \$25 lab fee required

A course designed to introduce students to the profession of athletic training and provide them with essential tools to be able to prevent, recognize and manage injuries received as a result of participation in various activities. The course will address mechanisms and classifications of injury, the physiologic response to injury and the healing process. Specific injuries will be discussed such as: concussions, injuries to the head, neck, and spine; injuries to the upper extremity and injuries to the lower extremity. The course is lecture based with a lab included. Students will also be required to become certified by the National Federation of High Schools—Concussion in Sport. Prerequisites: BIOL 111 or 150; BIOL 220.

HPER 217 Personal & Community Health (2)

Class # 5685 — Instructor: Michelle Warren

Study of personal health over the life span to include: emotional and mental health, the effects of substance abuse on emotional, physical, and social health, the physical and emotional aspects of human sexuality, and study of community and environmental health.

HPER 222 Nutrition (3)

Class # 5693 — Instructor: Jeremiah Moen

Study the basic principles of nutrition and current nutritional facts. Examination will also include meeting nutritional needs in society and throughout the lifecycle.

HPER 315 Movement Education in Early Childhood (2)

Class # 5684 — Instructor: Ashley Nelson

This course is designed for the early childhood educator (birth-8 years) and HPER majors and minors. Students will explore the importance of developmentally appropriate movement education for young children. Developing and implementing a movement education curriculum is at the core of this course. Areas to be covered include: child development as it relates to movement education, planning appropriate games and activities for children at varying

Eight-Week Session May 21 - July 15

levels of development, and practical application of a movement curriculum in an early childhood setting. Prerequisite: EC 210, EC 211 for education majors. No prerequisites for HPER majors/minors.

HPER 319 Health & Physical Education in the Elementary School (2)

Class # 5791 — Instructor: Ashley Nelson

A course designed specifically for the Elementary Education majors and HPER majors/minors. Areas of study include: understanding the need for physical education; the instructional process; program implementation; and teaching the objectives of physical education (personal health skills, motor skills, lifetime activities, and sport skills). Peer teaching of an elementary physical education lesson plan will be included. The 10 content areas of health will be studied.

HPER 321 Foundations & Methods of Coaching (2)

Class # 5692 — Instructor: William Tomblin

The course is designed to assist coaches in creating a healthy age-appropriate athletic experience. The course will identify the role of a coach, professional development of coaches, coaches as managers, teaching and modeling behavior, physical conditioning and nutrition of athletes, and ethics. Students will learn how to develop and prepare instructional plans. They will learn the methods and principles of teaching. Good coaching is good teaching. The values that students need on the playing field and in life will be stressed.

HPER 333 Physical Education for the Exceptional Child (2)

Class # 5683 — Instructor: Ashley Nelson

Etiology of specific handicaps and adaptations of various activities in which individuals may participate at various grade levels. Students will understand the referral, assessment, planning, and placement procedures specific to teaching students with disabilities in physical fitness and gross motor skills. Theory and practical work will be emphasized. Prerequisite: junior standing.

HPER 340 Modern Issues & Materials in Health (3)

Class # 5694 — Instructor: Jeremiah Moen

Emphasis on current trends in health and a collection of health materials that include contemporary topics of diseases, drug abuse, environmental problems, sexuality, smoking and tobacco, consumer products, and others. Students will be responsible for collecting data and information on disease prevention. Aids control, reducing the risks of accidents, and promoting health enhancing dietary practices. Prerequisite: HPER 217.

HPER 350 Motor Learning (2)

Class # 5682 — Instructor: Jesse Thompson

A course designed to improve the quality of instruction in physical education through an understanding of the research problems, trends, and teaching methods in motor learning. Prerequisite: sophomore standing.

HPER 360 Sport & Exercise Psychology (2)

Class # 5688 — Instructor: Lindsey Johnson

Examination of psychological constructs influencing the competitive sport process, motor performance, and exercise behavior, as well as the influence of sport and exercise on psychological and emotional factors.

HPER 368 Principles of Conditioning

(3) Class # 5695 — Instructor: Jeremiah Moen

Study the techniques of strength training and conditioning. Emphasis on program design and implementation for general, athletic, and special populations.

HPER 369 Principles of Sports Management (3)

Class # 5687 — Instructor: Lindsey Johnson

This course will allow students to look at the management side of the diverse and expanding field of sport and recreation. The course is designed to provide a comprehensive look at the basic organizational structures found in the sport industry. Students will examine applications of managerial concepts and processes, and the ways in which organizations interact with each other and with other governing bodies.

HPER 380 Sport Sociology (2)

Class # 5690 — Instructor: Ashley VandeVeen

Surveys that principles that underlie the social structure and processes that create and transform the function of sports in American culture, with the focus on the contemporary scene.

HPER 402 Exercise Physiology (4)

Class # 8174 — Instructor: Jeremiah Moen Online with required Labs on Wed 10:00 AM—12:00 PM FH143 ON CAMPUS

A study of the effects of exercise and training on the physiology of the human body. Special attention will be given to adaptations of various body systems, lab related activities commonly used to assess such adaptations, and other areas related to training. Laboratory activities and exercises will test aerobic and anaerobic capacity, strength, body composition, and dietary analysis. Prerequisites: BIOL 111 or BIOL 150, and BIOL 220.

HPER 440 Organization & Administration of Physical Education & Athletes (2)

Class # 5689 — Instructor: Ashley VandeVeen

Policies, procedures, and problems in administration of physical education/athletics at the elementary and secondary levels. Both curricular and extracurricular aspects will be considered. Prerequisite: junior standing.

HPER 476S-A: Comprehensive Review/Exam - Health Education (1) Arranged

Class # 8265 — Instructor: Staff ON CAMPUS

This course fulfills LEAP requirements and must be completed through Mayville State University. HPER majors are required to satisfactorily pass a comprehensive examination for the Health or Health Education major. This course is designed to provide a comprehensive review of material that will be covered on the exit examination and will provide documentation for the completion of this graduation requirement. S/U Grading.

HPER 476S-B: Comprehensive Review/Exam - Physical Education (1) Arranged

Class # 8266 — Instructor: Staff ON CAMPUS

This course fulfills LEAP requirements and must be completed through Mayville State University. HPER majors are

required to satisfactorily pass a comprehensive examination for the Physical Education major. This course is designed to provide a comprehensive review of material that will be covered on the exit examination and will provide documentation for the completion of this graduation requirement. S/U Grading.

HPER 476S-C: Comprehensive Review/Exam - Sports Management (1) Arranged

Class # 5814 — Instructor: Scott Parker ON CAMPUS

This course fulfills LEAP requirements and must be completed through Mayville State University. HPER majors are required to satisfactorily pass a comprehensive examination for the Sports Management major. This course is designed to provide a comprehensive review of material that will be covered on the exit examination and will provide documentation for the completion of this graduation requirement. S/U Grading.

HPER 476S-D: Comprehensive Review/Exam - Fitness & Wellness (1) Arranged

Class # 5815 — Instructor: Scott Parker ON CAMPUS

This course fulfills LEAP requirements and must be completed through Mayville State University. HPER majors are required to satisfactorily pass a comprehensive examination for the Fitness and Wellness major. This course is designed to provide a comprehensive review of material that will be covered on the exit examination and will provide documentation for the completion of this graduation requirement. S/U Grading.

HPER 497S Internship (0.5 -10)

Arranged Class # 5686 — Instructor: Lindsey Johnson ON CAMPUS

An off-campus work experience related to the student's major or minor course of study. Credit hours are determined by the Health and Physical Education faculty and are based on the relevancy of the work assignment. The Sports Management major requires 2 (100 hours of work experience per credit). The Fitness and Wellness Major requires 2 (200 hours) of supervised field work in a professional setting. If a student is a double major in Fitness & Wellness and Sports Management, a total of 3 of internship needs to be completed. Pre-requisite: junior or senior standing, consent of instructor. S/U Grading.

COMM 110 Fundamentals of Public Speaking (3)

Class # 5763 — Instructor: Pamela Ressler

This course focuses on the theory and practice of discussing, informing, persuading, and entertaining in a public speaking context, with appropriate use of graphic presentation software and other current technologies and includes a section on electronic communication. This essential studies course prepares the student for active participation in oral and electronic communication not only in the classroom, but also as a member of the community. Prerequisite: None. Essential Studies.

ENGL 110 College Composition I (3)

Class # 5750 — Instructor: April Hastings

ENGL 110 develops the foundational skills for college-level writing. These skills include learning how to respond

critically to texts, develop a thesis, make claims and support them with evidence, respond to and work with sources, frame a written project with organization and transitions, cite and document sources in accordance with MLA documentation standards, and edit scholarly work. Students will learn how to consider the rhetorical nature of academic discourse as they move through the drafting process. Essential Studies. Prerequisite: Students who score 15-17 on the ACT English subtest or equivalent exams may register for this course along with ASC 088-English Composition Lab. Students who have scored 18 or above on the ACT English subtest or equivalent exams, or have completed ACS 086-Preparatory English or equivalent course with at least a "C" or higher may register for this course.

ENGL 120 College Composition II (3)

Class # 5744 — Instructor: Aprill Hastings

ENGL 120 expands on ENGL 110, offering advanced practice in college-level writing. This class utilizes library resources to work on research skills that are essential to academic study in field-specific work. Students will learn how to evaluate credible sources and frame a longer written project, building on the rhetorical writing skills taught in ENGL 110. Essential Studies. Prerequisite: Successful completion of ENGL 110 or equivalent course or 27 or above on the ACT English subtest or equivalent exams.

ENGL 317 Children's Literature (3)

Class # 5764 — Instructor: Ann Willeon

A survey of children's literature, past and present covering all genres including a balance of non-fiction to support North Dakota State Standards in the classroom. Students will engage in related studies on topics including selection and evaluation of materials, the needs and interests of children, and the development of literature appreciation in children. Students also review literature related to diversity (e.g., ethnicity, race, socio-economic status, gender, exceptionalities, language, religion, and sexual orientation) while completing online research to create cultural units that infuse diversity and literature across the curriculum.

ENGL 426 Reading in the Content Area (2)

Class # 7615 — Instructor: Cindy Gregg

The focus of the course is on development of instructional strategies to teach reading and comprehension in all K-12 classrooms. Studies focus on basic principles of developmental reading theory and practice while focusing on diverse learners and learning styles. Participation in teaching demonstrations support the student's use of teaching strategies. This course emphasizes reflective teaching practice and the commitment to varying teaching methods and assessment approaches for K-12 teachers. Students will complete an arranged literacy-based teaching field experience in the Fall session. This course is required for all secondary education majors.

GEOG 103 Multicultural World, Global Issues (3)

Class # 5748 — Instructor: Aaron Kingsbury

This is an introductory course focusing on how diversity, global and multicultural issues affect communities around the world. The course is focused on modes of critical thinking that stress both considerations of "space and place" and the interconnected roles of the "local" and "global" in shaping our world. Topics included are the global distribution of population, migration, popular culture,

languages, religions, ethnicities, environment, food and agriculture, urbanization and economic systems. Prerequisite: None.

GEOG 300 World Regional Geography and Anthropology (3)

Class # 5749 — Instructor: Aaron Kingsbury

This course provides an introduction to key core geographic regions of the world from geographic and anthropological perspectives. Students will increase their geographic literacy and further learn to think and write critically about cultural and physical processes affecting how we live. The course is fully structured around the Geography of Life and North Dakota State Standards for the Social Studies sets for teaching standards. All elements of this course reflect these teaching standards including maps, images of place and their impact on human behavior, physical landscapes and regional differences in the human use of the earth. Prerequisite: Completion of ENGL 110 and ENGL 120 or 125.

HIST 103 U.S. To 1877 (3)

Class # 5752 — Instructor: Elliott Rotvold

A historical survey of United States History from its earliest European backgrounds to 1877.

HUM 220 History of Music in a Multicultural World (3)

Class # 5751 — Instructor: Greta Paschke

History of Music in a Multicultural World is designed to arouse greater interest in music of western and non-western cultures and to provide a basis for further appreciation of music. The survey of music from ancient times through music of the twenty first century includes the developments in the world of art, literature and history that took place during the same time frame.

PSYC 111 Introduction to Psychology (3)

Class # 5783 — Instructor: Lynn DiLivio

This is an introductory survey of the basic approaches and concepts used to explore the diversity of human experience, development, and behavior, including important research in the area and application of everyday life. Prerequisite: None. Essential Studies.

PSYC 255 Child & Adolescent Psychology (3)

Class # 5784 — Instructor: Lynn DiLivio

This course is designed to cover specifically the cognitive, physiological, social and emotional aspects of human development from conception to early adulthood. Special emphasis is placed on the development of students of diversity. This course is required for all education majors (early childhood, pre-school, elementary, middle and secondary education).

PSYC 422 Educational Assessment (2)

Class # 5794 — Instructor: Brittany Hagen

The focus of this course is for teacher candidates to understand and use a range of planning tools for desired learning results and multiple sources of evidence of student

learning. Beginning with the identification of learning goals and purpose for assessment, candidates will: (1) diagnosis diverse student needs, (2) learn to use formative assessment and feedback, (3) critique existing assessment tools, (4) design, adapt and select a range of multiple evaluation, (5) use technology to support assessment practices, (6) communicate standards-based results, and (7) use assessment results to improve the teaching and learning process through data-based decision-making. Prerequisite: PSYC 111 and junior standing.

SOC 110 Introduction to Sociology (3)

Class # 5745 — Instructor: Lonamalia Smith

An introductory examination of social behavior and human groups through an analysis of the diversity in culture, human interactions, social structure, social differentiation, social change, and social process. Prerequisite: None.

SOC 335 Marriage & the Family (3)

Class # 5746 — Instructor: Lonamalia Smith

A study of the sociology of marriage and family life, including contemporary changes and challenges. Prerequisite: SOC 110.

SOC 355 Drugs and Society (3)

Class # 5747 — Instructor: Lonamalia Smith

A study of drug use in modern society. Topics include social definitions, identification, causes, controls, and consequences of both legal and illegal drug use and problems. Prerequisite: SOC 110. Essential Studies.

SPAN 101 First Year Spanish I (4)

Class # 5788 — Instructor: Carmen Rygg

Fundamentals of Spanish and development of the basic language skills of listening, speaking, reading, and writing, with an emphasis on oral proficiency. Culture and language structures are also important components of the course.

SPAN 102 First Year Spanish II (4)

Class # 5789 — Instructor: Carmen Rygg

Continuation of the fundamentals of Spanish and development of the basic language skills of listening, speaking, reading, and writing, with an emphasis on oral proficiency. Culture and language structures are also important components of the course. Prerequisite: SPAN 101.

SPAN 201 Second Year Spanish I (4)

Class # 5790 — Instructor: Carmen Rygg

Continuation of SPAN 102 with practice and review of the fundamentals of listening, speaking, reading, and writing. Emphasis on oral skills, as well as increased outside readings of Spanish texts. Prerequisite: SPAN 102.

SPAN 202 Second Year Spanish II (4)

Class # 9077 — Instructor: Carmen Rygg

Continuation of SPAN 201 with practice and review of the fundamentals of listening, speaking, reading, and writing. Emphasis on oral skills, as well as increased outside readings of Spanish texts. Prerequisite: SPAN 201.

IMPORTANT REGULAR 8-WEEK CLASS INFORMATION:

Last day to add a class 5-25-18

Last day to drop without a "W" 5-25-18

Last day for 100% refund 5-25-18

Last day to drop a class 6-26-18

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

Eight-Week Session May 21 - July 15

BIOL 220 Anatomy & Physiology I (3)

Class # 5711 — Instructor: Joseph Mehus

Three lecture hours per week. The study of anatomy and physiology of the human body will be studied as an integrated topic. This is the first course of a two course sequence. Topics covered in this course will include organization from atomic structure to organ level structure, the integumentary system, skeletal, muscular, respiratory and cardiac systems. Prerequisite: None. BIOL 111 or BIOL 150 or equivalent and CHEM 121 are highly recommended. CO-requisite BIOL 220L. Essential Studies.

BIOL 220L Anatomy & Physiology I Lab

(1) Class # 5713 — Instructor: Joseph Mehus

Two laboratory hours per week. Laboratory topics to be covered are designed to complement the materials studied in BIOL 220. Topics include activities related to cellular structure, micro- and macroscopic observations and interpretations of cellular, tissue, integument, skeletal, muscular, cardiac system structures and tissues, and dissection of animal specimens. Activities related to the study of physiology are also included. CO-requisite: BIOL 220. Essential Studies.

BIOL 221 Anatomy & Physiology II (3)

Class # 5715 — Instructor: Joseph Mehus

Three lecture hours per week. The study of anatomy and physiology of the human body will be studied as an integrated topic. This is the second course of a two course sequence. Topics which will be covered include the nervous, endocrine, digestive/metabolism, urinary, and reproductive systems. Elements of development and growth, and of human genetics will also be considered. Prerequisite: None. BIOL 111 or BIOL 150 or equivalent, BIOL 220/220L, and CHEM 121 are highly recommended. Essential Studies.

BIOL 221L Anatomy & Physiology II Lab

(1) Class # 5717 — Instructor: Joseph Mehus

Two laboratory hours per week. Laboratory topics to be covered are designed to complement the materials studied in BIOL 221. Topics include activities related to the nervous, endocrine, digestive, urinary, and reproductive systems. Genetics and developmental topics will be reviewed. Microscopic specimens will be examined as appropriate. Animal specimens will be dissected and activities related to the study of human physiology are also included. CO-requisite: BIOL 221.

PHYS 211 College Physics I (3)

Class # 5700 — Instructor: Tom Gonnella

Three hours of lecture. An algebra-based physics course designed to provide a general, conceptual understanding of the principles of physics related to motion, energy, properties of matter, and thermodynamics. Students

should have already completed MATH 103 and MATH 105 before enrolling in this course. CO-requisite: PHYS 211L.

PHYS 211L College Physics I Lab (1)

Class # 5701 — Instructor: Tom Gonnella

This course consists of two hours of laboratory per week and the assignments will be applicable to lecture. The students will collect data using interfaced probeware, analyze data using spreadsheet software, and investigate more complex concepts in physics by using simulation software. Students should have already completed CIS 114 before enrolling in this course. CO-requisite: PHYS 211.

PHYS 212 College Physics II (3)

Class #5702 — Instructor: Tom Gonnella

Three hours of lecture. An algebra-based physics course designed to provide a general, conceptual understanding of the principles of physics related to thermodynamics, waves, sound, electricity, magnetism, light, and optics. Students should have already completed PHYS 211 before enrolling in this course. CO-requisite: PHYS 212L.

PHYS 212L College Physics II Lab (1)

Class # 5722 — Instructor: Tom Gonnella

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 212. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 251 University Physics I (4)

Class # 5703 — Instructor: Tom Gonnella

Four hours of lecture. A calculus based physics course designed to provide Science and Engineering majors with a deeper understanding of the principles of physics related to motion, energy, properties of matter, and thermodynamics. This course is intended as an alternative to PHYS 211, not sequential to it. Upon transferring to another NDUS institution, the four course credits obtained in taking this course at MSU may be reduced to three credits. Students

should have already completed MATH 165 before enrolling in this course. CO-requisite: PHYS 251L.

PHYS 251L University Physics I Lab (1)

Class # 5704 — Instructor: Tom Gonnella

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 251. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course. CO-requisite: PHYS 251.

PHYS 252 University Physics II (4)

Class # 5706 — Instructor: Tom Gonnella

Four hours of lecture. A calculus-based physics course designed to provide science and engineering majors with a deeper understanding of the principles of physics related to thermodynamics, waves, sound, electricity, magnetism, light, and optics. Students should have already completed MATH 165 before enrolling in this course. CO-requisite: PHYS 252L.

PHYS 252L University Physics II Lab

(1) Class # 5757 — Instructor: Tom Gonnella

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 252. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYSICS LABS

Class # 5701, 5722, 5704, 5757

The lab course is intended for students that have already completed the corresponding lecture course. For this online lab you need to purchase lab kit from the MSU bookstore (about \$600). If the kit is sent back to the bookstore in good condition at the end of the 8-week term, the bookstore will buy the kit back for about \$340. The original cost of the kit is the replacement cost if a kit is not sent back. You will not be able to find the kit elsewhere and the Physics I kit and Physics II kits are different so one kit will not allow you to do all the labs in both courses.

IMPORTANT REGULAR 8-WEEK CLASS INFORMATION:

Last day to add a class 5-25-18

Last day to drop without a "W" 5-25-18

Last day for 100% refund 5-25-18

Last day to drop a class 6-26-18

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

Dynamic Sessions (ON CAMPUS)

HPER 210 First Aid & CPR (1)

Class # 8173 — Instructor: Timothy O'Brien **June 1–3**
Fri 6:00 PM–9:00 PM; Sat 9:00 AM–6:00 PM; Sun
12:00 PM–6:00 PM FH109 — \$25 required fee.

Instruction and laboratory practice in first aid procedures including cardiopulmonary resuscitation (CPR), rescue breathing, artificial airway obstruction, and use of an automated external defibrillator (AED). The course is taught according to American Heart Association standards. Students demonstrating the necessary skills and knowledge will be certified in Basic Life Saving for Healthcare Providers and Heart Saver First Aid. This certification is good for two years. Required for all HPER majors.

PHYS 211L College Physics I Lab (1)

Class # 5770 — Instructor: Tom Gonnella **May 14-16**
Mon/Tue 7:00 AM–9:00 PM; Wed 7:00 AM–11:00 AM
SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments will be applicable to lecture. The students will collect data using interfaced probeware, analyze data using spreadsheet software, and investigate more complex concepts in physics by using simulation software. Students should have already completed CIS 114 before enrolling in this course. CO-requisite: PHYS 211.

PHYS 211L College Physics I Lab (1)

Class # 5771 — Instructor: Tom Gonnella **June 4-6**
Mon/Tue 7:00 AM–9:00 PM; Wed 7:00 AM–11:00 AM
SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments will be applicable to lecture. The students will collect data using interfaced probeware, analyze data using spreadsheet software, and investigate more complex concepts in physics by using simulation software. Students should have already completed CIS 114 before enrolling in this course. CO-requisite: PHYS 211.

PHYS 212L College Physics II Lab (1)

Class # 5705 — Instructor: Tom Gonnella **May 16-18**
Wed 12:00 PM–9:00 PM; Thurs 7:00 AM–9:00 PM; Fri
7:00 AM–4:00 PM SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 212. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 212L College Physics II Lab (1)

Class # 8130 — Instructor: Tom Gonnella **June 6-8**
Wed 12:00 PM–9:00 PM; Thurs 7:00 AM–9:00 PM; Fri
7:00 AM–4:00 PM SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 212. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 251L University Physics I Lab (1)

Class # 5772 — Instructor: Tom Gonnella **May 14-16**
Mon/Tue 7:00 AM–9:00 PM; Wed 7:00 AM–11:00 AM
SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 251. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 251L University Physics I Lab (1)

Class # 8131 — Instructor: Tom Gonnella **June 4-6**
Mon/Tue 7:00 AM–9:00 PM; Wed 7:00 AM–11:00 AM
SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 251. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 252L University Physics II Lab

(1) Class # 5707 — Instructor: Tom Gonnella **May 16-18**
Wed 12:00 PM–9:00 PM; Thurs 7:00 AM–9:00 PM; Fri
7:00 AM–4:00 PM SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 252. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

PHYS 252L University Physics II Lab

(1) Class # 8134 — Instructor: Tom Gonnella **June 6-8**
Wed 12:00 PM–9:00 PM; Thurs 7:00 AM–9:00 PM; Fri
7:00 AM–4:00 PM SB 132 — \$15 required lab fee

This course consists of two hours of laboratory per week and the assignments derived from the lecture course, PHYS 252. The students will collect data using interfaced probeware, apply a variety of data analysis tools, and investigate mathematical relationships by using simulation software. Students are expected to have a fundamental understanding Microsoft Excel prior to enrolling in this course.

IMPORTANT DYNAMIC CLASS INFORMATION:

Students registering for Dynamic Sessions will have a maximum of one day to drop the class. No refunds will be granted after the first day of class. Please see Campus Connection for specific drop dates.

Ten-Week Session May 21 - July 29

ACCT 200 Elements of Accounting I (3)

Class # 5760 — Instructor: Gene Levitt

This course introduces the accounting cycle as it applies to service and merchandising entities. Proprietorships, partnerships, and corporate ownership structures are considered. Prerequisite: CIS 119.

ACCT 360 Accounting Systems (2)

Class # 5761 — Instructor: Dustin Olson

Review of the accounting cycle, completion of manual and computerized practice sets, using software such as QuickBooks or Microsoft Dynamics, review of internal control, and the interface of accounting and financial reporting. Prerequisite: ACCT 201.

BUSN 305 Foundations of Entrepreneurship (3)

Class # 5758 — Instructor: Dustin Olson

This course will provide a basic understanding of the entrepreneurial process. The student will spend time researching successful and unsuccessful new business ventures and interacting with entrepreneurs. A comprehensive self-assessment will help students better understand their own personal aspirations while identifying necessary skill sets and competencies. Oral and written communication skills will be featured in this introductory course. This course will also include an introduction to the components of a Business Plan. Prerequisite: CIS 119, BADM 302.

BUSN 323 Managerial Finance (3)

Class # 5759 — Instructor: Gene Levitt

An introduction to business finance. Included topics are financial analysis and planning, working capital management, the capital budgeting process and long-term financing. Prerequisite: ACCT 201.

BUSN 497S Internship (0.5-10)

Class # 5696 — Instructor: Jay Hennickson **Arranged ON CAMPUS**

The student is given an opportunity to work closely with management in an on-the-job training basis. The manager guides the student through all levels and departments in a business, familiarizing the intern with all aspects of the business. The internship program is dependent upon the availability of employer sites. Internship credit may be repeated to a maximum of 10 S.H. However, no more than five internship per semester are allowed. Consent of division internship advisor. S/U grading.

SPED 330 Behavior Modification & Management (3)

Class # 5739 — Instructor: Robert Bennett

Presents and discusses theory, conceptual approaches, and practice in the application of operant and classical conditioning procedures to children, youth, and adults, in applied settings and how to apply Behavior Modification & Management to various forms of behavioral, psychological, and social-emotional development. Students will learn principles, procedures and practical how-to skills such as observing and recording behavior; recognizing instances of reinforcement, extinction and punishment, and their likely long-term effects; and design, implement and evaluate behavioral programs. Prerequisite: PSYC 111.

HUM 221 History of Art in a Multicultural World (3)

Class # 5767 — Instructor: Eric Johnson

History of Art in a Multicultural World is a humanities course intended to promote an understanding of both history and art through discussion and study of artistic

structural elements, methodologies, artists, patrons, and historically significant art works. The survey of art from ancient times through the 21st century includes the developments in the world of music, literature, and history that took place during the same time frame.

PSYC 280 Group Dynamics (3)

Class # 5785 — Instructor: Robert Bennett

This is a course designed to improve the student's understanding of the nature of group behavior and the techniques of group leadership in a variety of groups diverse as well as homogeneous groups. The course contains units on principles of group dynamics, nature of leadership, discussion groups, committee procedures, formal meetings, and devices for stimulating group participation. Prerequisite: PSYC 111.

PSYC 330 Behavior Modification & Management (3)

Class # 5786 — Instructor: Robert Bennett

Presents and discusses theory, conceptual approaches, and practice in the application of operant and classical conditioning procedures to children, youth, and adults, in applied settings and how to apply Behavior Modification & Management to various forms of behavioral, psychological, and social-emotional development. Students will learn principles, procedures and practical how-to skills such as observing and recording behavior; recognizing instances of reinforcement, extinction and punishment, and their likely long-term effects; and design, implement and evaluate behavioral programs. Prerequisite: PSYC 111.

PSYC 332 Applied Psychology (3)

Class #5787 — Instructor Robert Bennett

This is a course which aims to relate principles of psychology to everyday life and vocations. Specific applications include studies in relation to industry, employment, commerce, professions, public relations, and traits of personality in diverse and homogeneous work settings. Prerequisite: PSYC 111.

PSYC 497S Internship (0.5-10) Arranged

Class #5813 — Instructor Robert Bennett **ON CAMPUS**

An off-campus faculty-approved work experience related to the student's major or minor course of study. This experience must have the approval of the instructor. Internship credit may be repeated to a maximum of 10 S.H. However, no more than five internship per semester are allowed. Course may be repeated depending on the availability of worksites and the quality of the experience. Students are strongly encouraged to work in settings with diverse populations. Prerequisites: junior or senior standing, completion of approximately three-fourths of the major or minor program, cumulative grade point average of 2.50, 3.00 grade point average in the major or minor program, consent of instructor. S/U Grading.

MATH 277 Mathematics for Elementary Teachers (3)

Class # 5719 — Instructor: Staff

A mathematics content course for prospective elementary school teachers. Topics include problem solving, numeration systems, number theory, geometry, probability, statis-

tics, measurement & data, and algebra. Math manipulative technology are used in this course. Prerequisite: MATH 103 or equivalent.

MATH 323 Probability & Statistics (3)

Class # 5799 — Instructor: Mary Townsend

A course beginning with the study of probability and continuing with the mathematical theory of statistics from the set theoretic point of view. Prerequisite: MATH 103 or equivalent.

NURS 442 Population-Focused & Community-Based Nursing Care II (2)

Class # 8137 — Instructor: Collette Christoffers

Application of theories and principles of population-focused in a community setting. Assigned clinical projects will be completed under the direction of the faculty. Requires 40 hours in a community setting supervised by a qualified nursing preceptor. Hours to be completed within the 10 week block assigned for 442. Prerequisite: NURS 441.

NURS 442 Population-Focused & Community-Based Nursing Care II (2)

Class # 8138 — Instructor: Lindsay Bontjes

Application of theories and principles of population-focused in a community setting. Assigned clinical projects will be completed under the direction of the faculty. Requires 40 hours in a community setting supervised by a qualified nursing preceptor. Hours to be completed within the 10 week block assigned for 442. Prerequisite: NURS 441.

SCNC 101 Natural Science (3)

Class # 5753 — Instructor: Jeff Hovde

A general education lab science course designed for the non-science major. This survey course is designed to explore the world around us, encourage the appreciation for, and understanding of the natural sciences. Content of the course includes: astronomy, geology, meteorology, and biology/life science. CO-requisite: SCNC 101L.

SCNC 101L Natural Science Lab (1)

Class # 5754 — Instructor: Jeff Hovde

A laboratory experience to accompany Natural Science, SCNC 101. It incorporates technology through use of computer programs, the Internet, and provides hands-on experiences in the natural sciences. Lab sessions will be arranged. CO-requisite: SCNC 101.

SCNC 102 Physical Science (3)

Class # 5720 — Instructor: Jeff Hovde

A general education course designed for the non-science major which includes an introduction to the fundamental behavior of matter and energy. Includes elements of physical and chemical science. CO-requisite: SCNC 102L.

SCNC 102L Physical Science Lab (1)

Class # 5721 — Instructor: Jeff Hovde

A laboratory experience for physical science. CO-requisites: SCNC 102. Lab sessions will be arranged.

IMPORTANT 10-WEEK CLASS INFORMATION:

Last day to add a class 5-26-18

Last day to drop without a "W" 5-26-18

Last day for 100% refund 5-26-18

Last day to drop a class 7-7-2018

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

First Five-Week Session May 21—June 24

EDUC 324 North Dakota Studies (1)

Class # 5727 — Instructor: Brittany Hagen

This course is a general project-based study of North Dakota history and geography designed for Elementary Education majors to demonstrate familiarity with the North Dakota State standards and benchmarks. The course will include social, economic, cultural, and political history, as well as presenting information on the geographical elements, climate, and state facts and symbols. Prerequisite: EDUC 250.

UNIV 306 International Perspectives in Health II (2)

Class # 8684 — Instructors: Collette Christoffers & Tami Such

This course includes a 2 week in-country immersion designed to expand the students' understanding of the impact of cultural differences on health with comparison of differ-

ences between the United States and Belize. Involves travel as a group to Belize for study abroad experience. Students will have individual and group online preparation and reflection activities related to experiences in Belize. Students will implement a Health Education Project that was created in UNIV 305 International Perspectives in Health I. Prerequisite: UNIV 305.

MATH 103 College Algebra (3)

Class # 5708 — Instructor: Melanie Herman

Relations and functions, equations and inequalities, complex numbers; polynomial, rational, exponential and logarithmic functions; systems of equations, matrices and determinants, sequences and summation. Prerequisite: minimum 21 ACT Math sub score, or ASC 93 or equivalent with a grade of "C" or higher.

NURS 470 Nursing Leadership (4)

Class # 8135 — Instructors: Collette Christoffers & Monica Ptacek

An exploration of the role of the nurse leader, integrating prior learning with an understanding of the nature of leadership and management theories. An introduction to the principles of project management with application to a clinical leadership project. Consideration of individual student growth, particularly related to the student outcomes of the program and personal goals for future growth. Prerequisites: NURS 310, NURS 350. Summer.

IMPORTANT FIRST 5-WEEK CLASS INFORMATION:

Last day to add a class 5-23-18

Last day to drop without a "W" 5-23-18

Last day for 100% refund 5-23-18

Last day to drop a class 6-13-2018

ALL CLASSES ARE OFFERED "ONLINE" UNLESS OTHERWISE NOTED.

Second Five-Week Session June 25—July 29

HPER 485 Summer Camp Leadership

(2) Class # 5691 — Instructor: Scott Parker **Arranged**
ON CAMPUS

This is an opportunity for in-depth work with an on campus summer camp in the area of your choice. This is a pre-professional experience in a summer camp setting. Such experiences include observing and participating in all aspects of the coordination of the summer camp and anything associated with the promotion of the camp or school as it relates to the summer camp. The student will be involved with the following: addressing issues arising at the camp, ethical considerations, problem-solving, decision-making, leadership, and communication. Students will work with a coach or HPER faculty member to select an approved experience, and are required to work out the details with the camp coordinator. All summer camp coordination experiences must meet standards of the HPER Division and Mayville State University. Summer.

MATH 103 College Algebra (3)

Class # 5697 — Instructor: Bob Miess **ON CAMPUS**
M-Tu-W-Th-F 8:30 AM — 9:50 AM

Relations and functions, equations and inequalities, complex numbers; polynomial, rational, exponential and logarithmic functions; systems of equations, matrices and determinants, sequences and summation. Prerequisite: minimum 21 ACT Math sub score, or ASC 93 or equivalent with a grade of "C" or higher.

NURS 470 Nursing Leadership (4)

Class # 8686 — Instructors: Collette Christoffers & Monica Ptacek **ONLINE — \$100 lab fee required.**

An exploration of the role of the nurse leader, integrating prior learning with an understanding of the nature of leadership and management theories. An introduction to the principles of project management with application to a clinical leadership project. Consideration of individual student growth, particularly related to the student outcomes of the program and personal goals for future growth. Prerequisites: NURS 310, NURS 350. Summer.

Please complete a Housing Application by going to:

Academic Information

High School Sophomores, Juniors, or Seniors

High school students now classified as sophomores, juniors, or seniors may enroll as early entry students or earn dual credit during the Summer Session. To qualify, the student must have a 3.0 GPA and be recommended by his/her high school principal or counselor. Information regarding dual credit may be obtained from your high school principal or by calling 701-788-4667.

Kindergarten Endorsement

Kindergarten endorsement is available to licensed North Dakota elementary teachers, by completing the following courses:

- EC 210-Introduction to ECE (3)
- EC 211-Observation/Assessment/Interpretation Tech. (3)
- EC 313-Language/Literacy in ECE (3)
- EDUC 436-Kindergarten Methods (2)
- SPED 337-Special Needs in ECE (3)

Current Mayville State students who wish to teach kindergarten must complete the Early Childhood Education minor, EDUC 436- Kindergarten Methods, and enroll in five (5) S.H. of kindergarten student teaching.

Note: ESPB administrative rules are available on the ESPB Website: <http://www.nd.gov/espb/licensure/majorequivreq.html>.

How to apply and register

Visit www.mayvillestate.edu and click on "APPLY" to complete the online application for admission. A one-time \$35 application fee is required for new students.

Pre-registration will begin on **April 3, 2018**. Registration for courses will continue until the beginning of each session. Courses require a minimum number of pre-registered students. Any course may be cancelled due to low enrollment. Students will be informed of any cancellation affecting their enrollment before the beginning of the class.

Extended Learning Course Registration

To register for any of the Extended Learning Courses offered (exception listed below), go to Campus Connection. If you have any questions regarding an Extended Learning course, or how to register for the course, please call 1-800-437-4104, ext. 34667.

To register for BIOL 220/220L or BIOL 221/221L (Anatomy & Physiology) go to www.mayvillestate.edu and "MSU Online," then click on "Schedule and Registration Information."

Course materials and required supplies for Extended Learning Courses can be ordered at www.mayvillestatebookstore.com. If you have any questions, please call 1-800-437-4104, ext. 34823 to reach the MSU Bookstore.
