

MAYVILLE STATE UNIVERSITY

Accounting

Bachelor of Science - On-Campus & Online

The Program

The program provides the foundational coursework necessary for students who are preparing for careers in accounting, finance, auditing and related fields, or who plan to take professional accounting certification exams.

The accounting program has been designed to prepare students for CPA licensure exams in North Dakota. Completion of the program does not award students the CPA designation. North Dakota law requires that individuals who sit for the Certified Public Accountant (CPA) professional exam must complete 150 semester credits of college education.

On-campus and online/distance students living in or moving to any state other than North Dakota should be aware of the unique CPA licensure requirements for that location. Program applicants seeking to establish CPA licensure outside the state of North Dakota need to contact the Accounting Program Coordinator Dustin Olson, 701-788-4790 or dustin.olson3@mayvillestate.edu or division chair prior to beginning any on-campus or online/distance academic program which would lead to licensure. It is important for all students to understand the licensure requirements for the location they intend to live and work.

Students completing the B.S. in Accounting program must complete 36 credits of Essential Studies courses. The following Essential Studies courses are required as prerequisite courses for the program: COMM 110; ENGL 110; ENGL 120 or ENGL 125 (preferred); MATH 103 (College Algebra – may substitute a higher-level Math course with approval); ECON 201; and, ECON 202.

Value

The combination of MSU's affordability and its unique offerings make it a Best Regional College as designated by the Princeton Review.

Personal Service

We pride ourselves on being just the right size to give students the time they need to be successful. You will have small, personalized class settings for you to receive the education you want and deserve. Your professors will introduce you to new ways of thinking, exploring issues creatively, and evaluating ideas as you engage in the world.

13:1
student to faculty ratio

Opportunity

Whether it's music, athletics, or politics, students at Mayville State have the chance to participate in a variety of activities and clubs. These organizations are a great way to make new friends with similar interests, and the involvement outside of the classroom looks great on a resume.

3 International Champions
51 International Finalists
61 State Champions
**26,552+ miles travelled...
and counting**

Success

Our graduates are successful with more than 97% finding jobs after graduation in their chosen field or continuing their education.

Student Internships provide the opportunity to get hands on experience working in public or private accounting.

The average salary for accountants and auditors in North Dakota is \$64,260 - *Job Service, ND May 2020*

SUMMARY

Essential Studies	36 SH
Core Requirements	84 SH
No less than a total of	120 SH

Students working towards the B.S. in Accounting may choose to complete a double major with a B.S. in Business Administration.

“The depth of class offerings is one of the best aspects of the Accounting program at Mayville State. I graduated in Business with a minor in Accounting but the classes I took have met the requirements of all jobs I’ve had that required an Accounting degree. The professors set me up for success by using real world problems and working closely with me on a personal level thanks to the small class sizes. I believe that Mayville State University’s B.S. in Accounting program will be one of the best in the state because the groundwork was laid already, and I would recommend the program to anyone.”

- Rochester Mugumbate '16

“When I arrived on Mayville State’s campus, I was unsure what career path to follow. After taking classes in accounting, I became motivated to become a CPA and confident in my ability to reach that goal due to my experience at Mayville State.”

- Jacob Pladson '19
